Thank you Danielle for your quick response.

Does the response that it has been reviewed by your branch mean that the report has completed reviews by the following:

Team Lead, Branch Associate Director of Science, Branch Chief?

**Subject:** RE: ATSDR's 35th Avenue Evaluation Updates

Keriema,

Per our discussion on 18 May 2015, here is the information you requested about the 35<sup>th</sup> Avenue Public Health Consultation (PHC).

The 35<sup>th</sup> Avenue PHC is officially reviewed in ATSDR's clearance system first by staff in my branch and division (Team Lead, Branch Associate Director of Science, Branch Chief, Division Associate Director of Science, Division Director) and then by staff in the Office of Communication and Office of Science. At this time, the document has been reviewed by my branch.

It is very difficult to predict how long the review process will take, especially because additional reviewers can be added into the process at any time (such as staff in the Lead Poisoning Prevention Branch). It is my hope that the PHC would clear our system in early July. This would mean a public comment period starting mid-late July and ending mid-late August. Again though, this is only a projected time line and the process could take longer.

If you have any further questions or concerns, please don't hesitate to contact me.

Thanks,

Danielle

Keriema,

I hope all is well. We moving forward with ATSDR's 35<sup>th</sup> Avenue evaluation and wanted to touch base with you to provide some updates.

Are you available later this week or early next week for a conference call? If so, please let me know days/times that would work best for you.

Thanks,  
Danielle
